

## **Launch of uplifting the maximum number of industries and branches on individual QR record and the incorporation of new search criteria on QR**

In support of the requirement to indicate “Industry” and “Branch” on the Qualifications Register (QR) as advised by the Education Bureau (EDB), and in order to enhance the transparency of qualifications to learners and the usability of QR as a public database for quality assured qualifications under the Qualifications Framework (QF), the QR system is enhanced to a maximum of 10 industries and 30 branches are allowed on individual QR records.

Besides, to optimise the existing search functions on the QR, the two search functions “Qualifications Search” and “Operators/ Assessment Agencies Search” are enhanced by the incorporation of “Name of Granting Body” as one of the search criteria.

For details of these two enhancement items, please refer to the “Search for a Qualification” and “Search for an Operator / Assessment Agency” sections in the “Help” page on the QR.
